From this mass and labyrinth of matter we carefully select such articles, items, gems, and tit-bits as comprise the miscellany of our columns. Each editor acts upon this principle; hence, each individual paper is an epitome of the whole; and in proportion to the extent of the editorial judgement contains the quintessence of the whole. It requires more talent to make good selections than it does to write a good leader; hence, we imagine that the pop-ularity of a paper depends to a great ex-tent on its selections. The South Carolina Railroads Being Desiroyed.

New York, Feb. 15.—Richmond papers of Monday concede that Shermain has flanked Brauchville both above and below, and Hardee's forces have evacuated that place.
